Fibromyalgia Research Symposium 2016 in Nagasaki
Recent Advances in Basic, Translational Research and Therapeutic Treatments for Fibromyalgia
St. PRIERE, Nagasaki, JAPAN
October 1-2, 2016

Saturday, October 1, 2016
10:00 – 13:00  Registration at St. PRIERE
10:00 – 18:00  Poster Viewing
12:00 – 13:00  Luncheon Seminar (Nipro Corp.)
               Hiroshi Oka, Tokyo Rheumatism Pain Clinic
13:00 – 13:10  Opening Remark by Hiroshi Ueda
13:10 – 13:50  Keynote Lecture
               Daniel J. Clauw, University of Michigan
               “Overview of Fibromyalgia Clinical Syndrome”

Session I: Characterization of Fibromyalgia
13:50 – 14:15
•  Winfried Häuser, Technische Universität München
  “The Importance of Psychosocial Factors in the Etiology and Management of
  Fibromyalgia”

14:15 – 14:55  Coffee Break and Poster Session

Session II: Characterization of Fibromyalgia in Basic Study
14:55 – 15:45
•  Kathleen A. Sluka, The University of Iowa
  “Mechanisms Underlying the Transition from Acute to Chronic Pain”
•  Jon D. Levine, University of California, San Francisco
  “Fibromyalgia: The Nerve of that Disease”

Sponsored Symposia
Session III: Fibromyalgia and Translational Research
15:45 – 17:00
(Pfizer Inc.)
•  Hiroshi Ueda, Nagasaki University
  “Brain Mechanisms and Pharmacotherapy in Generalized Chronic Pain Model
  Similar to Fibromyalgia in Mice”
•  Lars Arendt-Nielsen, Aalborg University
  “Mechanistic Similarities Between Fibromyalgia and Other Chronic
  Pain Conditions”
(Janssen Pharmaceutical K.K.)
•  Hiroshi Oka, Tokyo Rheumatism Pain Clinic
  “Fibromyalgia Treatment in Japan”

Session IV: Hot Topics I
17:00 – 17:30
•  Chie Usui, Juntendo University
  “A Study of Brain Metabolism in Fibromyalgia by Positron Emission Tomography”
•  Deepak Sharan, Recoup Research and Education Foundation
  “Outcome of a Sequenced Multidisciplinary Rehabilitation Protocol for
  Fibromyalgia – 5 year follow up”

19:00 –  Dinner at Hotel New Nagasaki
Sunday, October 2, 2016

9:00 – 12:00  Poster Viewing

Session V: Clinical Mechanisms of Fibromyalgia
9:00 – 11:20
• Claudia Sommer, University of Würzburg
  “The Role of Peripheral Nociceptors in Fibromyalgia Syndrome”
• Manuel Martinez-Lavin, National Institute of Cardiology
  “Fibromyalgia as a Sympathetically Maintained Neuropathic Pain Syndrome”
• Roland Staud, University of Florida
  “Role of Peripheral Tissues for Fibromyalgia Pain and Fatigue”

Coffee Break (10:15 – 10:30)

• Eva Kosek, Karolinska Institutet and Stockholm Spine Center
  “The Effects of Treatment on Central Pain Modulation
  - Lessons Learned from fMRI Studies”
• Richard E. Harris, University of Michigan
  “Neural Basis of Multi Modal Sensory Augmentation in Fibromyalgia”

Session VI: Hot Topics II
11:20 – 11:50
• Kenji Miki, Osaka University
  “Efficacy of Mirtazapine for the Treatment of Fibromyalgia Without Concomitant
  Depression: A Randomized, Double-blind, Placebo-controlled Phase IIa Study in
  Japan”
• Kenichi Osada, St. Marianna University, School of Medicine
  “The Investigation for the Availability for Biological Marker for Fibromyalgia to
  Detect by the Pain with the Small Fiber Neuropathy Evaluated Instrument”

Session VII: General Discussion
11:50 – 12:05

12:05 – 12:10 Closing Remark by Hiroshi Oka
Program of Poster Session

- Poster Viewing: 10:00 – 18:00 (Oct 1st, 2016), 9:00 – 12:00 (Oct 2nd, 2016)
- Poster Session Room: CHATELET (5th floor in St. PRIERE)
