

# **2nd International Conference on Healthcare, SDGs and Social Business**

**Ito Campus, Kyushu University, 26-27 April 2018**

By AKINTIJE SIMBA Calliope  
Leading Program Student of  
Nagasaki University

# Introduction

- The UN has defined sustainable development goals (SDGs) to be achieved by the year 2030. These goals focus on reducing social inequalities in healthcare, education, income, and promoting environmental sustainability.
- SDGs can be advanced by developing Technologies that complement local needs and resources in lower income countries
- Researchers and Experts have shared their knowledge and findings in improving healthcare service delivery in unreached communities in developing countries and the aging communities in both developing and developed nations in forms of keynote speeches, presentations and posters.

Organized by

**Social Business  
Academia Network  
Japan**

# Theme

- Healthcare, SDGs and Social Business: How to reach the unreached communities in Asia/Africa.
- More about topics, on website: <http://conf.gramweb.net/>

# Outcome of participation

## ORGANIZERS

## SPONSORS

## SUPPORTERS

Join efforts toward SDGs

# Networking

# Dr Ryoma Kawano

Technical Officer, WHO  
Centre for Health  
Development, Kobe.

## Topic:

Global Health Challenges  
for Achieving UHC/SDGs  
and Required Social and  
Technological Innovations

# DR. TAKAO TODA

Vice President for Human Security and Global Health, JICA.

## Topic:

Towards Innovative and Sustainable Universal Healthcare (UHC) in the World

# Lesson Learnt

- Global partnership of multi-sectorial is paramount,
- Technology vs social innovation are key for Primary health care as well as SDGs
- There is no global health security without local health security,
- Social business as a new model for PHC and SDGs, as well as UHC should be encouraged among young people.
- Sharing information is easy than sharing money.

# Conclusion

- SDGs, Healthcare and Social business as well as technology innovations were the new concepts for me. Worth my participation.
- Cleared my question how to merge business and healthcare towards UHC/SDGs.
- This time my network expanded to Social business people, Companies and Technologists. This network shall be useful for my future.

# **ACKNOWLEDGEMENT**

Prof. Taro Yamamoto, Head of Department  
Department of International Health  
Institute of Tropical Medicine  
Nagasaki University  
&  
Lab Team members
